

RUDDER ANGLE INDICATOR RI200

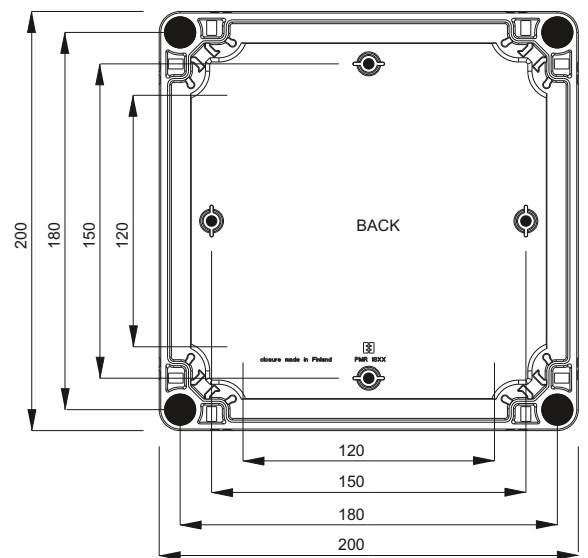

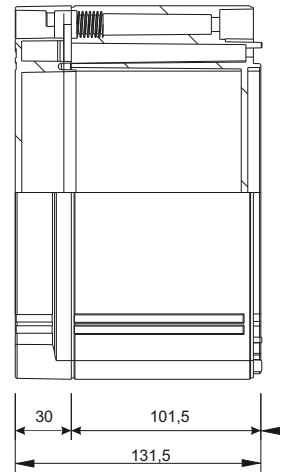

BENEFITS

- Meets DIN Standards and sizes
- Shock resistant Pivot and jewel movement
- Can be installed to outside of wings or any area
- Ideal for retrofit applications
- LED Scale illumination
- Designed to comply with industrial and marine specs
- +/- 10V Input fits most existing systems
- High accuracy 1%
- Easy Installation and replacement
- Fibreglass-reinforced bases
- Plain sides, transparent cover, PC

TECHNICAL DETAILS

Instrument Input	: +/- 10V DC
Scale	: 45° - 0 - 45°
Moving Angle	: 240°
Illumination Supply	: 24V DC
Illumination Current	: 20mA
Outline Sizes	: 200x200x132 mm
Indicator Sizes	: 144x144x54 mm
IP Protection Class	: IP67
Weight	: 2,5 kg

Dimensions in mm
